Unfortunately, “Do unto other as you would have them do unto you” is the wrong path. People and teams have a variety of motivators and communicate differently. Some people give up at the slightest resistance, while others seize presumed setbacks as an opportunity.

This Keynote will help you figure out which personality types work together well and which you shouldn't have sitting next to each other.

Also, let yourself be surprised at what a desert island, an Ironman® Triathlon and an end-of-year report have in common.
